QUANTON

MEET ALEX
QBOT™ FROM ADMIN

General Admin Digital worker

Why employ Alex?

Alex is a QBot™, digital worker designed to automate various admin tasks such as data entry, file organisation, email management, and appointment scheduling (to mention but a few), thus freeing up staff to do more enjoyable, higher value work. Passing these mundane, repetitive tasks to Alex helps to improve productivity, staff efficiency and streamlines backend processes.

There is very little that Alex cannot do!!

How we train Alex?

Identify the repetitive tasks → Determine the process

↓

Identify cost/ time savings → Develop your custom bot

↓

Test and Deploy Bot → Monitor and improve bot

Benefits of Alex

24/7	365
