

MEET JESS QBOT™ FROM ACCOUNTS

Your Personal Digital Assistant

Why employ Jess?

Tax season can be a particularly busy and stressful time for accounting firms. The need to meet tight deadlines and ensure accuracy in calculations can put a strain on even the most experienced teams. This is where our personalised robot comes in - Jess. Jess is a QBot™ and can be specifically designed around your needs to automate data extraction for easier tax calculation, account reconciliation, customer liaison via email or perform other repetitive, mundane jobs.

What can Jess do?

- Jess can perform tax reconciliations 10 times faster than her human counterpart.
- Jess takes care of all data capture tasks in a fraction of the time with zero errors.
- Jess frees up her human counterparts to focus on high value work.
